Send your CV and SOP at info@modelgovernance.in

Last Date of Application

30th October, 2016

About Us

Model Indian Governance (MIG) is a trailblazing initiative which replicates the Indian Parliament, its working and proceedings. It simulates committees in the Ministries, Planning Commission and regional bodies under which participants act as

delegates to discuss and debate pressing national issues.

We don't wish our endeavor to be meteoric, but expect it become a cult- a National Movement occurring year after year. It is in this regard that we invite you to be a part of this '**Indian Renaissance**'.

Previous Conferences

MIG laid its roots in **1st International Youth Forum for Policy, Change and Development 2012** as a sub-event and witnessed 100 potential delegates speaking on policy issues, discussing the framework and ultimately leading to youth awareness. It was formed to promote sustainability of knowledge in the areas of policy design and framework by enriching and inculcating acumen for policy design and debate inside contemporary generation.

Our previous conferences have hosted guest speakers like **Shri Manohar Parikkar, Dr. Shashi Tharoor, Shri Anurag Singh Thakur, Shri Arjun Ram Meghwal, and Shri Rajendra Agarwal.**

Vision

Model Indian Governance has been initiated by a resolute set of values and goals that we have imbibed firmly as our vision in an effort to bolster our progressive journey towards holistic development of the individual and the society because we believe that 'youth can make better policies for the development of our country'. We place our faith in the latent worth of bringing together diverse groups of scholars, across varied cultures, principles and vast geographical boundaries of this motherland, to provide an all-encompassing platform to facilitate meaningful dialogue on wide ranging concerns that affect every group equally severely but in different manifestations. We are guided by our aspiration to democratize pragmatically the notion of a Model Indian Governance, not only to ensure that the concept benefits an increasing number of Parliamentarians across the country, but to engage the youngest group of society which wants to get involved in the Parliamentary Process in the collective process of strategic policy and consensus building, with the aim of galvanizing the process of conflict resolution and policy making through novel ideas and suggestions. **Mission**

We strive to foster the virtues of leadership, tolerance, team work, negotiation and parliamentary competence in all witnesses to our herculean enterprise with our incessant and enthusiastic dedication to the said cause, which we believe, shall ultimately bear fruit not only as a vehicle of personal development but as an epiphany to the future generation of national leaders and harbingers of change in a world plagued by the misgivings of our ancestors. Our ultimate motto is to provide a stage for the youth of India, where they can not only understand the practical problems, which our law making body faces while enacting the policies, but also find out better solutions of those problems. We find inspiration in contemplation of the possibility

of increase in youth representatives, and we move ahead with affirmative anticipation that participation in genuine political scenarios and real time negotiation by youth of India who today, represent tomorrow will aid the understanding and progress towards the parliamentary process of this wonderful country.
