

Case History Timeline

CINO: KLER660009422026

30 Jun 2026

Purpose of Hearing: N/A

Proceedings: Complainant represented, Heard. The offenses alleged in the complaint are under Section 74, 75(iv), 79, 299 and 302 of BNS and Section 119(a) of KP Act. On perusal of the report filed by the police, it is seen that one of witnesses named Neena Kurup had given statement to police that at the office of association named AMMA located at Deshabhimani at Kaloor, the respondent had stated to said witness comments which attract offence punishable under Section 299 and 302 of BNS. The said witness had given statement that a person named Swetha Menon had told to said witness that the respondent had stated similar facts to her also about the complainant. The report does not state whether Swetha Menon has disowned stating such matter to Neena Kurup. The report itself states that it has been revealed that the respondent had stated words like double-daddy syndrome, issue with DNA, jihadi, etc. against the complainant. According to the report, the respondent had used such words in a playful meaning and does not have any criminal intent. This shows that the report is incomplete and cannot be fully relied on to proceed further. Only after having a detailed investigation, a proper conclusion in this matter would arise. Whether there was criminal intent or not could only be determined after collection of entire evidence. prima facie, there is element of cognizable offence committed against the complainant by the respondent and the same needs investigation. The issue regarding jurisdiction is well addressed in Section 173 of BNSS and thus Kadavanthra police station can register FIR and proceed further and during investigation if it is found that it lacks territorial jurisdiction to entertain said complaint, procedure can be adopted for transferring the investigation to the station concerned having jurisdiction. Hence, the complaint is forwarded to SHO Kadavanthra police station for investigation under Section 173(5) of BNSS.
