## New store additions to drive growth ahead

Landmark Cars' (LMC) EBITDAM at 5.6%, was down 20bps QoQ, led by weaker gross margins as service revenues at new outlets is in ramp-up phase. LMC added 23 outlets in 9MFY25 (~17% of total outlet count), which added to revenue growth (revenue +25% YoY) and helped diversify with high-growth brands such as M&M, Kia, MG and BYD. LMC's revenue from new outlets in Q3 was ~12% of total, at INR 1.9bn (proforma). We expect the impact on margins from new stores to continue for few more quarters. Accordingly, we have cut our FY26E margin estimates by ~80bps, but retain our revenue estimates. We believe LMC should benefit from the addition of high-growth brands, new PV launches and continuation of premiumization trend. Upgrade to **BUY** from Add with a DCF-based TP of INR 650 (earlier: INR 641), implying ~18x FY27E EPS.

## Takeaways from Q3FY25 conference call, and our views

- New car sales revenue (proforma) was up ~32% YoY at INR 14bn and ASP at INR 2.1mn, was up 8% YoY. The company's inventory level is at ~35 days currently vs ~60 days in Dec'24 and is lower than industry average levels. LMC expects strong growth in new car sales led by high-growth brands, including Mercedes Benz (MB), M&M, Kia, and MG. For the slower-performing Renault/Jeep operations, LMC expects margins to improve via sharing of infrastructure to pare cost of operations. The company's other expenses/manpower costs have reduced from ~5% each in FY24 to ~4% in Q3, led by cost rationalizing initiatives. With the company's focus on operationalising ongoing projects, rather than expansion, and with bulk of incremental costs already being up-fronted, rise in revenue from new outlets should help improve margins ahead.
- LMC added 23 outlets in 9MFY25 (~17% of total outlet count), and was able to operationalize them in a short timeframe. This has added to revenue growth and helped diversify with high-growth brands such as M&M, Kia, MG and BYD. After-sales revenue increased 9% YoY to INR 2.5bn. Growth and GM in this segment are lower in recent quarters and LMC expects growth/margins to increase to long term average as new outlets ramp up. GM for the new outlets is lower than that of existing outlets due to lower service contribution (7-8% service contribution currently vs ~15% for existing outlets). Average revenue per vehicle for its after-sales business was up 4% YoY, at ~INR 27k, and this could move higher with M&M/Kia/MG service business mix increasing ahead. Capex in 9MFY25 was INR1.2bn, led by brand portfolio rejig and thereby addition of new outlets. LMC expects capex to normalize from FY26E.

## Downside risks

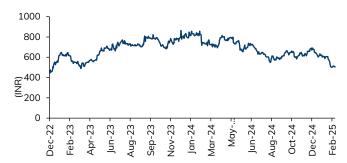

- Slowdown in domestic PV market.
- Pause in trend of car premiumisation theme in India.
- Risk of rise in working capital and discounts for models, ex-MB, in times of weak car demand.
