FLUID SIMPLICITY

Drawing freely without any restriction, illustrator **Sebin Simon** creates simple doodle illustrations that appeal with a seamless narrative.

For this series, Sebin comes up with freewheeling illustrations. Accented by flat backgrounds that enhance the uninhibited brush strokes, the artworks display a style of fibrousnesses. Most of the illustrated characters are reflections of various phases and forms of surrounding life, set to create works that fluidly connect various dimensions of existence. Inspired by several leading digital artists of the country, for the series, Sebin has explored their multiple style to come up with a new one. Simple and fluid, the common factor running through every creation is the presence of characters with long, curly, floating hair. Helping visuals bring ideas to life, every concept is a combination of fun, enjoyment and of course, doodling ←
