Приветствую.

сорт с Матерью Терезой, так же уже давно не выпускается, уверяю вас. тут не за что беспокоиться
Текст ответа Индийскому посольству ниже:

"Good day, friends!

On behalf of Rewort Brewery, I offer my deepest apologies for the current situation, we are very sorry that we caused you inconvenience and discomfort with our product.
Our image was stylized as the deeply respected Mahatma Gandhi, without the desire to offend anyone, but on the contrary, from the side of educating Russian buyers about the peculiarities of culture
and good deeds, I am not afraid of this word - the great Mahatma Gandhi! I will give an excerpt from the description of this variety to prove that our intentions were purely good - "We dedicated this bright style of beer to Mahatma Gandhi, a man whose life was spent in a tireless struggle for the independence of his own people. Gandhi showed that serious political results can be achieved by non-violent methods, and we agree with him on this"

Understanding the current situation, about a year ago we renamed our beer variety, now only one chain has a small amount of this variety and it will definitely run out soon.
For our part, we promise that we have long since stopped producing products that are offensive to you and will try to recall the rest from sale.

On behalf of the entire Rewort Brewery team, we express our deepest respect to you and your friendly people and once again apologize for the inconvenience caused to you, this will not happen again!"
