BEST DOCTORS SOUTH 2025

Tamilnadu

Karnataka

Andhra Pradesh+ Telangana

Kerala

Nebkar Media and Research is proud to present the 2025 edition of “Best Doctors South”—our annual feature celebrating excellence across diverse fields of medicine. This feature is the result of a meticulous peer survey of consultant doctors across the southern region, reviewed and validated by the Nebkar Media editorial team before finalizing the selection. We received an overwhelming response this year; however, due to space constraints, only 6-7 doctors could be featured in each specialty. We extend our sincere apologies to the other outstanding doctors who were shortlisted but could not be included this time. As the backbone of this feature is an extensive nomination survey, we encourage all doctors who receive the survey email to kindly respond and complete the questionnaire. Your participation will help us create a more comprehensive and inclusive list in the future
