## Leadership Lens

**Mr. Rajiv Mehta**  
permanent Trustee, Lilavati hospital and research centre

"It is imperative for a brand to stay relevant today, more than ever what helps brands tremendously today is striving for honesty, discipline and keeping an undeniable connect with the public at large. Each customer, in our case the patient, is treated with utmost care and we strive to raise our standards on the same."

**Reshma Kewalramani**  
Chief Executive Officer and President at Vertex

"We are incredibly focused on doing one thing and doing it very well: inventing medicines that are transformative, if not curative, for patients. ... We don't look for incrementalism—we look for transformation."

**Huzaifa Shehabi**  
CEO- Saifee Hospital

Patient-Centric Approach: A shift towards a more patient-centric approach is essential. Focusing on improving the overall patient experience, which includes personalized care, better communication, and increased accessibility to healthcare services.-

**Dr. Siddhartha Mukherje**  
Staff Cancer physician  
Columbia University Medical Center

"The greatest clinicians who I know seem to have a sixth sense for biases. They understand, almost instinctively, when prior bits of scattered knowledge apply to their patients—but, more important, when they don't apply to their patients."

**Dr. Atul Gawande**  
Endocrine Surgeon -Brigham and Women's Hospital -Boston, Massachusetts

"We've been wrong about what our job is in medicine. We think our job is to ensure health and survival. But really it is larger than that. It is to enable well-being."

**Dr Aseem Malhotra**  
Eminent cardiologist, UK

"Sports science research has revealed that although moderate exercise naturally optimises immune function and should be actively encouraged, overdoing it – especially without adequate nutrition, sleep and recovery – has the opposite effect, particularly for respiratory infections."

## Which breakthrough in healthcare are you most excited about?

**Dr. Vaishali Joshi**

Leading Obstetrician & Gynaecologist

"Mental health in pregnancy is one of the most overlooked issues. The holistic approach to pregnancy care should include not only physical but also mental wellbeing by un- stigmatising mental illnesses. This will ensure preventable sequels like depression, psychosis and grave outcomes like maternal suicide- demanding stronger policy, funding, and media attention.."

**Dr. Abhishek Bhargav**

Leading Cardiologist & Diabetologist

GLP-1 therapies are the healthcare breakthrough that excites me most, transforming obesity treatment, improving metabolic health, and reducing risks of chronic diseases.

**Dr. Nitin Gundre**

Leading Cardiac Surgeon

"I'm most excited about Artificial Intelligence (AI) in healthcare, minimally invasive & Robotic surgeries, structural heart therapies and genomics; to enable precise treatments thereby transforming outcomes."

**Dr. Santosh Shetty**

Joint Preservation and Robotic Joint Replacement Surgeon

"The most exciting breakthrough in healthcare is the transition from treating disease to predicting and preventing it. The fusion of AI, robotics, and personalized medicine is enabling earlier intervention, greater precision, and better outcomes. In orthopaedics, regenerative therapies and robotic assisted surgery are redefining bone and joint care, helping preserve mobility and improve quality of life."

**Dr. Lakshmi Pathy Ramesh**

Senior Geriatrician & Founder- Geri Care

"India's time in geriatrics is now. Geriatrics is not just general medicine for older people. It is a distinct specialty focused not only on treating disease, but on preserving function, dignity, and independence. India has solved for survival. We must now build the specialty that holds together the next twenty or thirty years of senior life."

The aim of this research was to arrive at a list Top Hospitals in India for the year 2026. The survey Conducted by NEB RESEARCH covered 10 cities across India (Including NCR, s) which are important healthcare hubs. Top hospitals for specializations were surveyed accordingly. The specialties that we included in the research were Cardiology, Pediatrics, Gastroenterology, Orthopedics, Neurology, Oncology, Pulmonology, fertility, Liver Transplant, GI Surgery, Gynecology and Obstetrics, Organ Transplant, Ophthalmology, Urology, Nephrology, Neurosurgery and Endocrinology and Diabetes

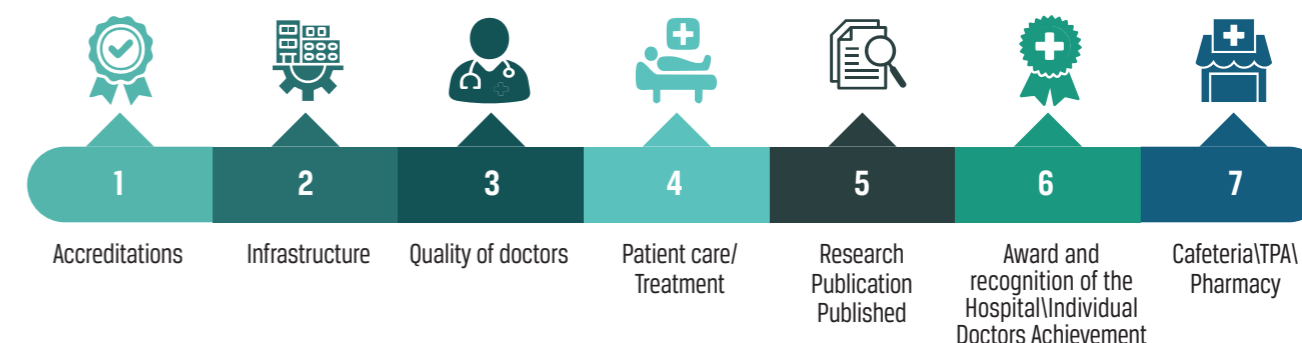

## METHODOLOGY INDIA'S BEST HOSPITALS 2026

### STEP 1

#### Authentic Data Collection

An Elaborate questionnaire was sent to all hospitals to collect factual information based on varied parameters that ranged from the hospital's Infrastructure to the quality of treatment provided. A total of 1550 hospitals were contacted for factual information.

### Data sheet Focus

### STEP2

#### Perceptual Survey

In the perceptual survey module for Top Multi-speciality Hospitals Ranking Survey, a primary survey was carried among health care experts- A total of 2120 interviews were conducted across 10 cities viz. Delhi/ NCR, Mumbai, Kolkata, Chennai, Bangalore, Pune, Hyderabad, Jaipur, Pune. The respondents were asked to rank top multispecialty hospitals in their cities, top hospitals in their respective specialities.

### STEP3 Desk Research

With the help of a secondary research module an exhaustive list of Multi- Specialty Hospitals was prepared with the help of Medical publications, Internet and various Government of India sources like Central Bureau of Health Intelligence (CBHI), Directorate of Health Services and Department of Public Health and Preventive Medicines.

### Analysis and Final Ranking of Multi-speciality Hospitals

Hospital Rank is based on the total number of nominations received, ranks given, and the ratings on the parameters mentioned in the article comprising desk research, factual score and perceptual survey. In certain cities all specialities ranking couldn't be done due to the lack of enough data, only those specialities were covered where sufficient data was available.

#### Disclaimer

While immense care has been taken to provide an honest assessment, the needs of each patient can be different. So, while this list can be used as a guideline, decisions should be based on what works best for the patient.
